## Muscles of Human Arm

Clavicle	Medial head	Extensor carpi radialis longus	Flexor digiti minimi brevis
Scapula	Long head	Extensor carpi radialis brevis	Abductor digiti minimi
Spine of scapula	Lateral head	Extensor digitorum	Superficial palmar arch
Acromion	Olecranon	Extensor digiti minimi	Deep palmar branch
Subscapularis	Radial nerve	Extensor carpi ulnaris	Deep palmar arch
Subclavius	Deep brachial artery	Anconeus	Common palmar digital artery
Latissimus dorsi	Medial brachial intermuscular septum	Supinator	Proper palmar digital artery
Pectoralis minor	Brachioradialis	Abductor pollicis longus	Common palmar digital nerve
Inferior belly of homohyoid muscle	Pronator teres	Extensor pollicis brevis	Proper palmar digital nerve
Supraspinatus	Flexor carpi radialis	Extensor pollicis longus	Adductor pollicis
Infraspinatus	Palmaris longus	Extensor indicis	Palmar interossei
Teres minor	Flexor carpi ulnaris	Ulnar	Palmar metacarpal artery
Teres major	Flexor digitorum superficialis	Radius	Metacarpal bone
Deltoid	Flexor pollicis longus	Recurrent interosseous artery	Tendon of extensor digitorum
Humerus	Flexor digitorum profundus	Posterior interosseous artery	Dorsal aponeurosis of the finger
Pectoralis major muscle	Pronator quadratus	Posterior interosseous nerve	Dorsal interossei
Biceps brachii	Radial artery	Abductor pollicis brevis	Dorsal palmar artery
Long head	Ulnar artery	Opponens pollicis muscle	Dorsal digital arter
Short head	Common interosseous artery	Flexor pollicis brevis	
Coracobrachialis	Anterior interosseous artery	Tendon of flexor digitorum superficialis	
Brachialis	Anterior interosseous nerve	Lumbricales	
Brachial artery	Superficial palmar branch		
Median nerve			
Ulnar nerve			
Triceps brachii
